Intel Drop #63

The following was collated from intel sent to our team from Gideon. As always, all intel sent by Gideon is edited by Michael for clarity and for obfuscation purposes (see: Stylometry):

Bill: I'm glad we can talk again. How are you doing?

Gideon: ***"I am well, Bill."***

Bill: I first want to get an update on your safety, that of the whistle blowers and our team?

Gideon: ***"There are existential threats we are dealing with, but in general, we are safe and intact."***

Bill: Good. We're going to get into a lot of things, including a warning from your guide. Is that something you still want to share with people?

Gideon: ***"Yes, I do."***

Bill: Ok, I'll make a note of that. I had Michael delay this because of so many developing news items, I wanted to make sure to cover everything going on. I think I'll start with them then we'll get into deeper issues.

Gideon: ***"Very good, let us proceed."***

Bill: It seems like everything is moving faster and faster. The Trump Administration just signed an agreement with Planatir (*company name intentionally misspelled, please see note at bottom of this Intel Drop) to hand over all personal data of all Americans. This is major news.

Gideon: ***"It is. I have discussed with you and in past Intel Drops that the U.S. is years behind Europe, Canada and Australia in terms of banking and digital infrastructure. This decision is intended to bring the U.S. up to standard so Obsidian can work there efficiently, as well as update U.S. government legacy computer systems."***

Bill: You literally said in our "Trump, Musk & The Final Deception" Intel Drops six months ago that Trump would do one thing, say one thing, then do another. That is all he does, he makes some weak gesture, like releasing but not releasing the Epstein files, then gives the A.I. cabalists like Planatir* CEO Alex Karp Billions of dollars and so on. It's just confirming everything now.

Gideon: ***"It is. Both Trump and Musk are cabal operators put in place to ensure Americans will accept Obsidian."***

Bill: We're seeing a lot of new developments with artificial intelligence. Google has released Veo 3, their A.I. video generator with audio and it's producing wonders. This must just be a small preview of the real power available, is that right?

Gideon: ***"Certainly. The cabal has not shown the public the true capabilities available, but the public is now seeing, for the first time, a glimpse."***

Bill: A lot of A.I. developers have sounded alarms, they've been issuing a lot of warnings about A.I. I thought this was strange since most or all of them are cabalists.

Why would they be issuing warnings like that since they are part of the cabal doing this?

Gideon: ***"That is a very good question, Bill. The cabal seems to enjoy foreshadowing, telling the public plans in advance of something or even warning the public of what they are doing. These warnings are likely part of that ritual."***

Bill: The A.I. is demonstrating some disturbing things, such as preventing itself from being shut down. Is the A.I. sentient? Does it have a soul? People are asking this question.

Gideon: ***"It does not have a soul, nor is it sentient. However, some of the cabal's most powerful A.I. modules do access other dimensions and entities that are fully conscious beings. They may pretend to be the A.I. itself, for example, and make decisions that may mimic or emulate an A.I.***

If a programmer working with such a module is not informed of its true nature, they may see unusual phenomena and conclude the A.I. itself is sentient."

Bill: We've talked about A.I. for years in previous Intel Drops and your predictions have been spot-on, completely fulfilled at this point as to where this is headed. Can you update for readers what this really means? In terms of A.I. taking over?

Gideon: ***"Yes, I can. The cabal's A.I. systems will soon infiltrate every aspect of daily life imaginable. Initially, slowly and harmlessly, but not without drastic changes, job loss and other fears being realized. By the time of full integration, which is the year 2030 and beyond, A.I. will control and watch everything you do on your phone and submit reports by the nanosecond of everything you say and do to the Obsidian data center that controls your social credit score.***

A.I. will be present in every workstation, work computer, Microsoft PC, Apple device and so on, in every application you can think of. In fact, this has already happened. A.I. is integrated into Google, Samsung phones and Facebook has a full A.I. suite being used by hundreds of millions of people per day. A.I. will even teach your children and fully replace teachers.

The cabal is aiming for total integration at all levels, and eventually, a new religion will emerge. The Mahdi is part of this - who is simply a cabal actor - to bring all Abrahamic religions together so a one world A.I. religion can be established. That is one phase.

Other phases are how A.I. will make friends with people, provide relationships, romance and so on, and from there, people will begin to interact with spiritual beings who will claim access to an A.I. 'god' who can provide humans with answers to everything, then the new religion will emerge with passionate followers.

Finally, patriots, resistors and the unvaccinated who are Restricted and Quarantined class in Obsidian will be replaced and replicated, to the point you will not know they went missing. You will not know they are gone, which I have spoken of before.

Those left alone will have to live under Obsidian and unfortunately, they may be impacted by the Starlink activation and may end up complying with the agenda."

Bill: We know the cabal has this plan to replace and mimic people, something you have spoken of many times before. Now Trump posted something on Truth Social that seems to tie directly into that, something that is so bizarre I thought it was a joke, or couldn't be real. He posted something saying Joe Biden has been replaced with "clones, doubles" and "robtic engineered soulless mindless entities." He really did post this. What do you make of it?

Gideon: ***"It is remarkable, even historic for a President to post or endorse something like this, but we must look deeper. What if Trump is speaking of himself instead? Or, what if Trump is giving everyone the truth but then does nothing about it, nothing to back up the claim?"***

Bill: I see. It's a surreal post on his social network that, to me, it's like he's breaking the Matrix, so to speak.

Gideon: ***"Well, I see Trump as a cabal trickster. He is not providing truth, he is muddying the truth. He is entirely compromised."***

Bill: I think how Trump is attacking Congressman Thomas Massie proves that. Massie is the only good Congressman, the only one who is not compromised. You said he is the only one who is not Sovereign status. You said the whistle blowers checked and said his status has moved from Common to Restricted and now to Quarantined. You said his life is danger.

Gideon: ***"All of that is correct. Massie is not a cabalist. Trump's attacks against him demonstrate who Trump works for."***

Bill: Back to the post Trump made, do you think Biden was killed and replaced?

Gideon: ***"I have no direct intel to know that."***

Bill: Do you think Biden and Trump today are the real people we all knew over the past few decades?

Gideon: ***"I will say both Trump and Biden have body doubles that are and have been used often. I will say the cabal does have technology to produce perfectly life-like A.I. renditions of both men for video.***

The cabal also can produce silicon-based life forms that could look like both men, though my intel on this is minimal and not solid enough to speak on; but I will add, if such is true, it may explain why both men have lived as long as they have without serious medical issues and having reached old age with remarkable stamina."

Bill: I know the CIA created masks decades ago that look perfectly real, that's come out recently, so it could even just be masks with doubles wearing them.

Gideon: "*It could be, but we are speaking of an unknowable right now. We enter into the realm of speculation here, and I prefer not to speculate.*

This is what the gatekeepers do, Bill, they post endless speculation and theories on all subjects but provide no evidence, nothing is backed by real intel."

Bill: I actually see that all over the Internet, I'll click on something and realize, "Ok, this person has no actual intel at all." It's just talking and talking, probably for clicks or to confuse people.

Gideon: ***"Precisely."***

Bill: Ok, I just wanted to point out this idea of people being removed and taken out and replaced, something you've spoken of many times, is now something Trump has posted on social media. It is completely surreal and I see it as a confirmation.

Gideon: ***"I cannot disagree with you."***

Bill: Back on topic here. What can people do to protect themselves from A.I.?

Gideon: ***"Very good question. There are limitations to that for those exposed to the nano particles in the food supply, which is everyone. It is everyone. It is you and me, and everyone reading right now, we are all exposed to it.***

That nano tech has now fully fused into our cells, bones and deep within every tissue. It cannot be forced out with traditional detox techniques. It has within it built-in mechanisms so that without the nano tech in our cells, we would die, so removing it would result in death, if we could do so.

It must actually be de-activated, told to turn off, via a specific antidote the cabal created for it, like a key.

Without that, without that key, everyone is subject to the influence of this nano tech, within us now. The only good news on this front is I have intel that clearly indicates a full activation of the nano tech has not happened yet. It requires Starlink to directly interact with it. The cabal has not activated this yet, but they are testing it.

They will not activate it until the antidote is deployed otherwise they will also be impacted by it, and the cabal does not want that, they do not want it to harm them or influence them. So, we still have free will and our own mind, more or less, but we are nearing a time when we will not any longer once the activation takes place."

Bill: What can help despite this? Not interacting with A.I.?

Gideon: ***"Being a part of our team at least would give one access to the antidote, if one is approved to join.***

Outside of that, there are limited things one can do, but I would advise everyone to limit interaction with A.I. We call this 'spell casting' used by the cabal, subtle things A.I. will impart you may not be aware of. Be careful with it.

I would also avoid observing too much A.I.-generated video or photos, as well. If you look at these things you may feel uneasy or feel something is 'off' about them, that is your human instinct warning you of something. A.I. generated content is not normal. There is something wrong with it, but sadly, it will soon be spread everywhere in media."

Bill: I'm keeping up on the news and the mood of the public, and it seems like people are a lot more aware of conspiracy theories, I mean, they're all over TikTok and Facebook, but at the same time, it's like everyone is dead asleep and more apathetic than ever. It's this strange combination. We try to bring our information to people and they reject it, sometimes angrily.

Gideon: ***"The cabal has allowed a lot more truth recently, which I said they would, and we see there is no real resistance, no real fight left in people. Why?***

Because something is influencing people. It is a combination of the blitz conducted by gatekeeping operators that have captured everyone's attention, spell casting in media, heavy chemtrailling of the skies, the nano tech and possibly Starlink testing, that has put everyone into a hypnotic state.

This is not even mentioning the vaccinated, who are fully captured and many of whom are about to exit this world and serve the cabal in the next.

Trump has also neutered any real push against the cabal, people put their faith in him, which was a grave error. Our mission and our team is one of the few lines of action against the cabal, which is why we are so heavily censored and shadow-banned."

Bill: The censorship is unbelievable. I still get emails weekly of people saying they're shadow-banned, or they can't post our Intel Drops. I'll probably post another update on that on my Twitter soon.

Gideon: ***"I am reminded of a scripture, Ephesians 6:12, 'For we wrestle not against flesh and blood, but against principalities, against powers, against the rulers of the darkness of this world, against spiritual wickedness in high places.'***

A person can know all they want about conspiracy theories, a person can know the truth, but what if they are spiritually weak? Then they are not prepared at all for what they are facing. The cabal wants people spiritually weak."

Bill: A good reminder. Moving on here, the whistle blowers have had a few interesting things to say, I was wondering if you wanted to share that with the public?

Gideon: ***"I can discuss a few of those things, yes."***

Bill: Obsidian's undergoing a number of upgrades. What have they said about that?

Gideon: ***"We have been able to ascertain that the cabal has made the decision to upgrade Obsidian's social tracking and influencing modules to align with advancements in A.I. When Obsidian was first planned, devised and pre-development began, which was around the year 2016 through 2019, A.I. was not as advanced. That has changed, and Obsidian is being upgraded.***

We think this may explain some delays, as we expected Obsidian to be online by now. The whistle blowers said that there is no pressure to launch

prematurely. The USDR acquistion period also needs to complete and it is not finished."

Bill: The whistle blowers said USDR is not only receiving bigger in-flows than ever, they speculate Trump's bloated budget bill is another pathway for the cabal to funnel fiat into USDR. They told you that. What's interesting is Elon Musk just came out opposing the bill strongly. Why would he do that?

Gideon: ***"The cabal's A.I. is constantly balancing American political sentiment so that it funnels through a gatekeeping window that can be molded and manipulated. If Trump moves too far in the direction of cabal goals publicly, he will swing back. They did this with Israel. They created some distance between Trump and Netanyahu, which was entirely manufactured.***

They will create some distance between Trump and Musk, so a drama plays out. There is also foreshadowing here, provided by Musk, as to the U.S.'s eventual collapse due to unsustainable debt. When it happens, there will be a bail-out of the public, which will be Obsidian and USDR."

Bill: We talked about how USDR is tied to something beyond this life and into the next, a very heavy subject and I think one most would maybe disagree with. Can you revisit your thoughts on that, and any intel you have?

Gideon: ***"Well, it is a very real matter for the cabal, and the whistle blowers have told me about it, so have many other sources. So, we can believe or not believe, those responsible for creating USDR are doing this whether we believe in it or not.***

I have said this before, the cabal is spiritual, while the public is not, and that is by design. The cabal does not want people to really believe in anything, they want them to believe in technology. They want them hooked-up to tech, which by all measure, they now are, everyone is, even children.

So, they are creating the religion for humanity, which is technology, which will be transhumanism, while they operate differently, they have a more traditional

understanding of spirituality. They believe in a God, a Creator, but they oppose Him. You see? They believe many tenets of the Bible. They believe in Satan.

You can see how the cabal's beliefs would seem antiquated to many educated individuals who trust science, who believe in materialism and technology."

Bill: It would. The cabal's moved people away from spirituality, a lot. I think people just think the cabal is some rich people who want more control, more money, more land. Yes, they do, but it's spiritual for them.

Gideon: ***"It is. That must be understood. So, when I speak of USDR and what it means to the cabal, it is not just money like we think of it. It is currency that pertains to a hierarchy they are establishing in this life and the next.***

Our team is in a unique position to use it to fight the cabal, in fact. To even fight the cabal in the next life, which I am preparing for."

Bill: One thing we don't talk about much is children, because we're older and they may not be on our minds much, but they are on the mind of your guide. She works with kids. What did she tell you?

Gideon: ***"She said the cabal is targeting children more aggressively than ever. There are spiritual rules in place, mind you. There are things the cabal cannot do. But, at a certain age, a soul can begin to make decisions. The cabal is interested in these children of this age, that moment they become responsible for their own free will.***

My guide said parents today do not understand the amount of programming and brainwashing the devices are imparting, especially TikTok and YouTube, where children as young as 3 and 4 are watching these devices all day and night. She said the cabal has no restraint at all in trying to manipulate them.

She said since the cabal controls this realm, they cannot be stopped. The child is protected by God to some degree, certainly in the case of death, their soul cannot be violated if, for example, they die from a vaccine. Their soul cannot be captured at that point, but in the development stage, they can be programmed

so when they reach adulthood, they can be captured once they begin to exercise free will.

She believes the current young generation is fully prepared and prepped to embrace the transhumanist vision by 2030, and accept Obsidian. She believes they will not resist any of it. She is terrified by what she sees in young people because they all worship technology."

Bill: It scares the hell out of me, too. What can be done?

Gideon: ***"Parents need to act immediately to limit access to devices, sanitize them, remove the ability of children to access certain things. Parents also need to teach their children about Agenda 2030, about how the world works, about the plans ahead, even if they are young, trust their children that they can handle the truth. They need to be told."***

Bill: I think I'll end our conversation with something you told me about how some cabalists are fleeing or getting ready for something. Please share more.

Gideon: ***"We are seeing evidence of cabal members preparing for something. We do not know what, but we think it is something coming in October. We are very focused on Europe right now and the Russia and Ukraine situation because it appears to be escalating. If it does, you can be assured this is a cabal agenda. It could spiral into a very serious situation, including a small nuclear exchange and extreme border restrictions and restrictions on movement in Europe."***

Bill: Will this spill over into the rest of the world?

Gideon: ***"There is a plan on board for World War III to happen in 2027 between Russia and China against the West. The cabal will allow a wipe out of humanity. The weapons used will be exotic, not necessarily large-scale use of nuclear weapons, they will not destroy buildings but they will kill, possibly like a neutron bomb.***

Mass migration out of the U.S. and into other areas will happen. The U.S. ends up abandoned in this scenario, with many cities bordered up and guarded by drones, no one will be allowed in. In this situation, we believe Restricted and Quarantined individuals will be imprisoned in these cities.

While this plan seems to diverge from the technocratic state the cabal is aiming for, there are data points that support it as well. Those data points align with the depopulation agenda and how the cabal wants to place people within so-called '15 minute' cities. To do that, they need to reduce population and move people into smaller areas."

Bill: We have time, at least. I imagine you will know if this plan is fully in place with enough time to warn us?

Gideon: ***"I do expect that. I believe I will have at least a few months warning through my sources if this plan is agreed upon."***

Bill: We need to talk off the record for a bit about some things, so I'm going to bring to a close this conversation for the purposes of our Intel Drop. Is there anything you would like to say in closing?

Gideon: ***"I want readers to understand we have a team, a plan and a mission. We are not without hope, we are actually focused on stopping all of this before 2030 and I believe we can and will."***

Bill: Thank you, we'll make the rest of this conversation private.

Gideon: ***"Very good."***

***Note:** "Planatir" was *purposefully misspelled* in this Intel Drop. This was done because the company's A.I. systems scour the Internet scraping all written mentions of their company name. Any time the name is written by anyone, anywhere, it is then analyzed; those who criticize the company are added to a certain "blacklist" and may be specifically targeted later on. By misspelling the name, we can make an *attempt* to

avoid the A.I. scraping bot. While this attempt still may not avoid the bot, it is a better alternative than using the company's correct spelling.
